

The Henry Street Consortium Partnership Engagement Model

Marjorie Schaffer, PhD, PHN, RN
 Madeleine Kerr, PhD, PHN, RN
 Rose Jost, MEd, BS, PHN

What is the Henry Street Consortium?

- A collaboration of 15 health departments and 10 schools of nursing in Minnesota
- Established in 2001 with grant support
- Named after Lillian Wald's Henry Street Settlement
- Members meet 4 times a year

<http://www.henrystreetconsortium.org/>

Goals of Collaboration

- Ensure the continuation of the Henry Street Consortium as a viable, flexible, and sustainable partnership between public health nursing education and practice.
- Create teaching-learning strategies to promote achievement of entry-level population-based PHN competencies for students and novice PHN staff.

Henry Street Consortium Activities

- Entry-level core PHN competencies
- Clinical menus for population-based PHN learning opportunities
- Population-Based Public Health Clinical Manual

The Henry Street Consortium Partnership Engagement Model

- Goal: Develop a partnership engagement model for best practices for nurse educators and agency public health nurses in organizing clinical nursing experiences
- Grant from the Robert Wood Johnson Foundation Executive Nurse Fellows Alumni Association

Project Method

September 2014	Consortium member survey
Fall 2014	Developed online modules <ul style="list-style-type: none"> • Cornerstones of Public Health Nursing • Public Health Intervention Wheel • Precepting public health nursing students Developed/refined tools based on survey
Spring 2015	Piloted tools with 3 faculty/PHN nurse teams
Fall 2015	Continued tool development Piloted with 5 faculty/PHN teams
January 2016	Conducted 2 focus groups with teams
Spring 2016	Revised and posted resources/tools on web site

Henry Street Resources

- Three 50-minute online modules
- Guidelines for Role Expectations
- Glossary of Key Terms
- Adult Learning Principles for Preceptors Working with Nursing Students
- Henry Street Consortium Population-Focused Student Project Examples
- Henry Street Entry-level Population-Based Public Health Nursing Competencies
- Interactive Public Health Intervention Wheel
- Omaha System

<https://www.bethel.edu/undergrad/academics/nursing/professional-development/preceptor-training>

Henry Street Tools

- Competency Clinical Menu
- Agency Feedback Form for Student Clinical Experience
- Public Health Nursing Process: Home Visit Observations and Reflections
- Student Learner and Self-Assessment Planning Tool
- Confidence in Using Public Health Nursing Skills
- Shadowing a PHN for a Day: Scope of Practice
- Professional Accountability: Self-Evaluation
- Student Competencies Self-Assessment

<https://www.bethel.edu/undergrad/academics/nursing/professional-development/preceptor-training>

Experience on Pilot Team: Faculty Perspective

- University of Minnesota BSN students in 7-week public health nursing experience
- Public health nursing partners from two county health departments

Students and preceptor at Dakota County Department of Public Health on student project presentation day.

Experience on Pilot Team: Faculty Perspective Process

- Relationship building, shared expectations
- Tool selection by PHNs and faculty:
 - Public Health Nursing Process: Home Visit Observations and Reflections

Word Cloud based on student observations

Experience on Pilot Team: Faculty Perspective Outcomes

- Public health nurses made time to debrief with students before/after the home visit to discuss the observation tool.
- Students gained deeper insight into home visiting.
- Added a seminar on home visit documentation and quality improvement, led by the PHN preceptor.

POSTERIOR - OHAMA SYSTEM	System	First Assessment	Last Assessment	Status
01.01 Public Health Nursing	01.01.01	01.01.01	01.01.01	Present
KNOWLEDGE on a scale of 1 - 5 where 5 is best	Outcome	3		
SKILLS on a scale of 1 - 5 where 5 is best	Outcome	4		
ATTITUDE on a scale of 1 - 5 where 5 is best	Outcome	4		

Example of clinical documentation system with Omaha System terminology

Perspective of Agency Public Health Nurse Manager and New Faculty Member

- City public health agency serving a population of 172,870
- Long history with 3 academic nursing programs for baccalaureate and master degree students
- Founding member of Henry Street Consortium

Perspective of Agency Public Health Nurse

- Henry Street Consortium is a link with academia to discuss concerns and share needs.
- Identification of entry level competencies led to creation of a clinical menu for faculty and students to select desired experiences.
- The Consortium provides resources for developing relevant clinical experiences.

Experience of New Faculty Member

- Henry Street Engagement model provides valuable tools for creating clinical experiences.
- New tools are available for reflection and evaluation.
- Public health agency for student clinical experiences is a Henry Street partner and uses the tools and resources.
- The Henry Street Consortium provides a shared frame of reference.

Acknowledgements

- Funding – Robert Wood Johnson Foundation Executive Nurse Fellows Alumni Association
- Grant Collaborators
 - Bonnie Brueshoff, DNP, RN, PHN – Public Health Director, Dakota County Public Health
 - Patricia M. Schoon, DNP, MPH, PHN, RN – Assistant Professor, Metropolitan State University
